

## Using UF Zoom on Your Mobile Device

### Download ZOOM Cloud Meetings app on Your Mobile Device

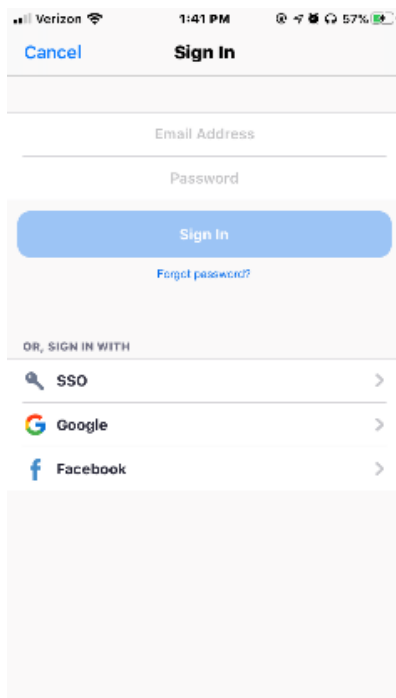

1. Go to the App Store or Google Play Store
2. Search "Zoom" and look for the ZOOM Cloud Meetings app.
3. Tap GET or INSTALL button to install. Open app when done.

### Sign Into UF Zoom - iOS

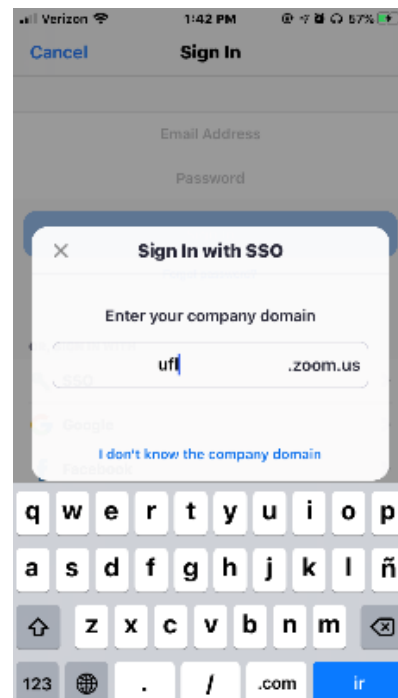

Make sure you have ZOOM Cloud Meetings app installed. Follow directions above to download and install to your mobile device. The app is free.

### Select Sign in with SSO

### Enter **uf1** for the Domain

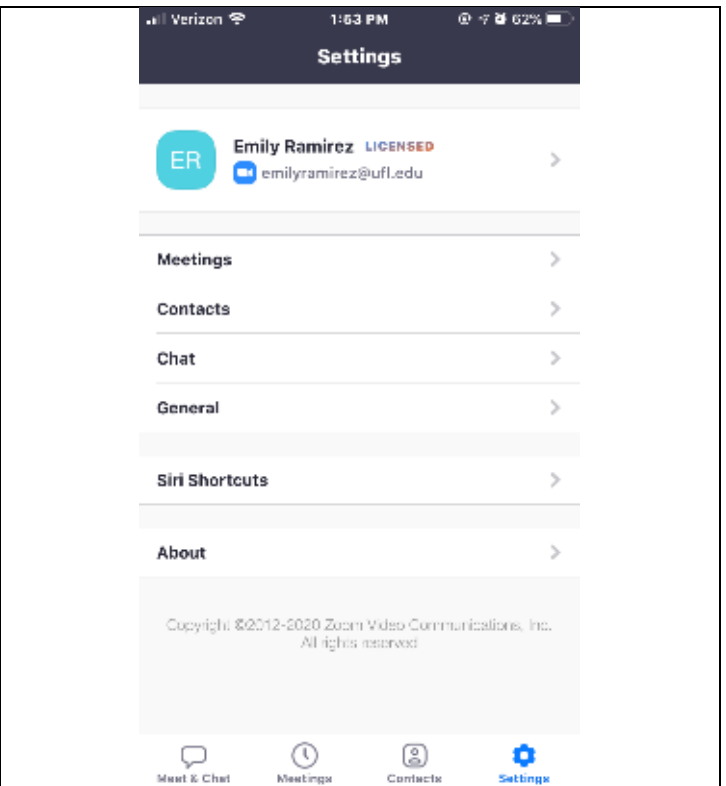

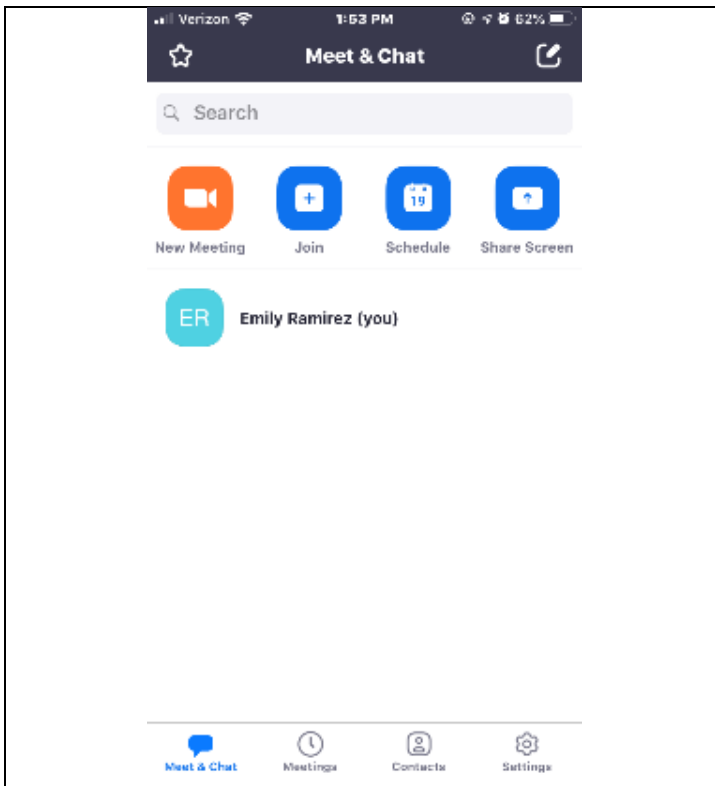

The app will redirect you to the UF Shibboleth sign in. Sign in with your GatorLink Credentials

Open the page in Zoom

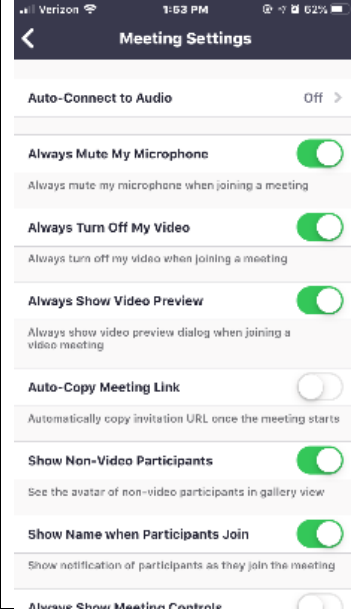

**To Automatically Mute the Audio and Video Upon Entering a Meeting**

Make sure that you have the Zoom app installed	Open the Zoom app
Go to Settings, located in the lower right-hand side	Select Meetings

Select Always Mute My Microphone

Select Always turn Off My Video

### Testing Audio Video through Zoom

1. Make sure that you have Zoom installed on your phone
2. Select New Meeting
3. Select Video On
4. Select Start Meeting
5. If this is the first meeting you've joined, you will be asked to give access to your audio and camera. Allow access
6. When you join the meeting, you will be prompted to join the audio. You will be given the following options
  - Call in via Device Audio: Connects audio through the internet
  - Dial in: Provides options to dial into the Zoom Meeting via telephone
  - Call My Phone: Calls your phone to join the meeting. Requires an audio plan for the meeting host
